

Problem 6

Methods and constructors that need unit tests:

- Simulation:
 - Constructor
 - Perpendicular
 - findReferencePoint
 - getCurrentSec
 - getCurrentMSec
 - getControl
 - setNumSides
 - run
 - main
 - computeCorners
 - nearestPolyPoints

Problem 7

Output with 7 sides.

Question 8

I spent ten minutes on this question.

I apologize for severely underestimating the time necessary to complete this pset. I spent a total of at least 10-12 hours between fixing the last pre-deliverable and writing Simulation, but that was not enough. I do plan to finish this pset before moving on.
